

African American Muslim Survey

Why Bilalian?

As-Salaamu Alaikum...

My name is Khalid A. Mustafa and I am a member of Masjid Al-Qur'an here in Boston, Massachusetts. I am doing research for my graduate school degree in Community Development Policy and Practice at the University of New Hampshire. The specific focus of my research is on the African American Muslim community that emerged from the Nation of Islam into orthodox Al-Islam under the leadership of Imam Warith Deen Mohammed. Imam Mohammed defined this original group of Muslims as Bilalian.

The foundation of my study analyzes the challenges of financial prosperity and generational participation in the operations of the community. The research data revealed some interesting insights on preserving the legacy of Imam Warith Deen Mohammed and moved me to collect more data nationally.

I am seeking your support in the dissemination of the survey, to recommend Muslim who would like to participate in a focus group discussion and identify Muslim leaders to participate in a key stakeholder interview. The intent is to complete the data collecting process within four weeks and take the remaining portion of the semester to complete the final paper. Your participation is critical to the success of this research and the health of our religious community.

The more Muslim who participate increases the accuracy of the information and the success of the recommendations extended through the research.
